

**She couldn't
Tell us she'd
fallen.
But the house
knew.**

BHAVI COMMTECH
intelligent sensors

4D Sensing Technology A revolutionary, new hands-free emergency response system.

-) 100% automatic
-) No wearables
-) No buttons or pendants
-) No cameras

Just place a 4D Sensing Tech on your wall and if you fall, or need help, it will call a responder service or emergency contact.

-) Small
-) Affordable
-) Multi-functional
-) Upgradeable

Like wifi, the device sends out signals that scan the environment using harmless radio waves a thousand times weaker than a cellphone.

4D Sensing Tech detects a person's body position, a fall, or health problems.

It's mindful of privacy, because it doesn't use cameras.

Setup is also simple for out-the-box use, with pre-configured settings available for installers.

It's US and CE certified, UL1637 approved* and approved for use across the United States, Europe, Canada, Australia and Japan.

*In final stage of approval.

4D Sensing Vision

Unparalleled Safety with Peace of Mind

We've conducted 1,200 tests across 17 different fall scenarios, and achieved industry leading detection rates.

Fast falls, gradual falls, falls behind objects and furniture, falling from a bed, falling on the back, side, and stomach, with variations of BMI and height.

Only 4D Sensing Tech let's people age in place with dignity.

✓ Fast falls

Tying shoes ✓

✓ Slow falls

Detects all types of falls

Avoids false alarms

Pets ✓

✓ Concealed falls

Vacuums ✓

Works Automatically
Gets help if a user is unconscious

Detects All Types of Falls

No Device to Wear

Mains Powered
No need for user to charge it

Has Ability to Call for Help

Upgradable Features
Breathing, security, activity monitoring and geo-fencing

4D Sensing Tech

Fall-detection Pendant

Smart Watch

Beyond PERS- Complete Health Monitoring Throughout the Room

ONLINE CLOUD Dashboard

Remote Monitoring

With precise monitoring and tracking across many rooms, occupants can be looked after remotely.

Analysis

Data is gathered and analyzed in a secure cloud environment.

Monitors through objects and furniture, such as beds and sofas, and detects around corners.

Range: 20-25 Square Feet

170° Field of View

Future Features

Holistic health and safety monitoring.

-) **Health**
Breathing and sleep analysis.
-) **Activity monitoring**
Gait analysis and daily patterns.
-) **Upgradable**
All upgradeable via software updates.

Expand beyond the home to more markets.

-) Homecare agencies
-) Hospital and rehabilitation centers
-) Senior living communities, Independent & assisted living facilities
